United Nations Convention on the Rights of the Child

Contained in this treaty is a profound idea: that children are human beings and individuals with their own rights. The Convention says childhood is separate from adulthood, and lasts until 18; it is a special, protected time, in which children must be allowed to grow, learn, play, develop and flourish with dignity. The Convention went on to become the most widely ratified human rights treaty in history and has helped transform children's lives.

All children have these rights, no matter who they are, where they live, what their parents do, what language they speak, what their religion is, whether they are a boy or girl, what their culture is, whether they have a disability, whether they are rich or poor. No child should be treated unfairly on any basis.
